	Reading & Comprehension

3 Read the following, then answer the questions:

Hala lived with her father and her younger brother. Her mother died when she was young. Her father is a farmer. He works on his nearby farm. One summer evening, while she was cooking some food in the kitchen, a big wolf jumped through the open window into the house. It was very dangerous.

General Tests

Hala was a brave girl. To keep her brother safe, Hala quickly put him into a room and shut the door. Then, she picked a stick and tried to drive the wolf away. But, she failed. She hurried outside the house and shouted for help. Many people came and killed \underline{it} . Her father was proud of her and thanked her for saving her brother. The lesson here is clear. If we have a problem, we must face it ourselves, then ask others to help us.

3 Read the following, then answer the questions:

It was the first day of summer vacation. Mahmoud and Badr finished their exams and were very happy. They woke up at sunrise and packed a picnic lunch. They were excited about riding their bikes all the way to the mountain. They had planned this bike ride all year long. The ride took them an hour. It was very hot by the time they reached the top of Summit Mountain. They stopped to have a drink when Mahmoud noticed something gold shining. They went near to get a better look. It was a gold box with a pharaonic painting on it. It looked very old. When they opened it, it was full of gold coins. Mahmoud wanted to take the gold for themselves. But Badr had another opinion. He persuaded Mahmoud to take the box to the police station. He said that it belongs to all the Egyptians.

Zebras are among the most beautiful animals on earth. With their bold black-and-white stripes, they stand apart from other African animals. Many people don't know it, but the zebra is one of the few wild horses left in the world. All horses belong to the same animal group, known as Equus. Zebras are shorter than most other horses. Their ears are larger, and some of them make a barking sound! Most importantly, only zebras have stripes. Many zebras have been killed for **their** beautiful skins. Fortunately, things are being done to protect zebras. Now, African governments and wildlife groups have set up nature reserves, where zebras can live without the risk of being hunted.

The life of the ancient Egyptians was very different from our life. Their kings were very powerful. They built huge tombs to be buried in. The Egyptians thought that their king was a god. They didn't wear many

clothes. Men wore short skirts and women wore long dresses. They used to shave their heads to keep cool because the weather was hot.

In ancient Egypt, women didn't go out to work. <u>They</u> stayed at home. Most men were farmers. Some men were builders or fishermen. Their children did the same jobs as their parents. Girls stayed at home with their mothers to learn to look after their families. Boys worked with their fathers.

3 Read the following, then answer the questions:

Nine thousand years ago, people didn't have money. They traded animals in for things they wanted. A little later, people traded crops for what they wanted. In China, in about 1200 B.C., people used shells for money. Chinese people also traded metal tools for things **they** wanted. For example, they traded metal knives for what they wanted. Later in China, people made metal money. In about 100 B.C., the Chinese made money of animal skin. The first banknotes were white deer skin. The first paper money came from China about 900 years later. In about 700 B.C. people made round metal coins. The coins were made of gold and silver. The first coins came from Lydia. Lydia is in today's Turkey. Money makes trading easier.

Last summer, I went on a trip to Sharm El-Sheikh. On the last day of my trip, I went fishing. Unluckily, I didn't catch any fish and I got bored. So I decided to have a swim. When I took off my clothes, my wallet fell into the water. It had all my money, my passport and plane ticket. I jumped into the water to look for it, but I couldn't find it.

The next morning, I wasn't able to leave the hotel. I had no money to pay for the days which I spent there. I had no plane ticket or passport to travel back home. I told myself, "If I hadn't had a swim, I wouldn't have lost my wallet." To my surprise, I heard the hotel receptionist calling my name. When I went to him, he gave me my wallet and said that someone found it near the seashore and brought it to the hotel.

Last summer, Ali wanted to spend a nice holiday. He decided to spend a week on his uncle's farm and another week on the seaside. First, he travelled with his parents to Alexandria where they stayed at a nice hotel overlooking the sea. The weather was fine. Every morning, they went swimming and enjoyed sitting on the beach. In the evening, they used to go shopping. After this week, Ali left his parents in Alexandria and travelled by bus to his uncle's farm. There, he spent a very good time. In the evening, he enjoyed singing and dancing with the farmers. In fact, it was the best holiday Ali had ever spent.

One day my elder brother and his friends came home very angry. They said that the streets around their school were not clean enough. There was rubbish everywhere, so they decided to clean these streets and put rubbish baskets everywhere with the help of the pupils of their school. They collected money from each other. They bought brooms and baskets. Every morning they went to school an hour earlier to clean the street. Most teachers and parents encouraged them very much. Then, they bought gardening tools to be able to plant flowers in the streets. Now, you can see beautiful flowers and trees on both sides of the streets. Everyone is happy and proud. Visitors say, "What a lovely place! What a lovely school!"

Dolphins are sea animals that belong to the whales. A sea animal is the one that lives in the water Dolphins are found all over the world in the oceans, seas and lakes. Dolphins are meat eater; they feed on fish. They often swim together in groups and they have good eyesight and good hearing but they do not have a sense of smell. Dolphins come in different sizes. Some are smaller than the usual person, but others can be 30 feet long or more than five times than the usual person. Dolphins are very intelligent and communicate with each other using

clicks and whistles. All dolphins are good swimmers and funny swimmers, too. If you go near the seashores, you might see dolphins playing and swimming happily there. Some park owners get dolphins in their parks to amuse the visitors.

Uncle Saleh is fond of going to the cinema. We don't have a cinema in our town, so he travels to the next town to see a film once a month. He goes to the cinema alone though he has many friends. Recently, we knew why from my mother. Uncle Saleh wanted to be an actor at early age. He waited outside the studios to appear in scenes, trying to achieve his goal as a film star. While he was looking for a small part in a film, he met a director in our town who offered him a role as an accountant in a bank. The part was small with a few lines, but important for him. He thought it was the beginning as a film star. In the end, the scene was cancelled and nobody told him. When the film appeared in Cairo, he took all his friends to see it. It

After finishing preparatory school at 15, some students choose to stay in general education but 60 percent of them go to technical schools. That's why the Egyptian government is giving due care to the technical education and more technical schools are being built nowadays. Students who join such schools learn skills that they can really use in the world of work. Because of the quick changes in technology, the skills that people need today are very different to what was needed ten or twenty years ago. There are also different kinds of technical schools and each school teaches a different kind of technical skill. Students who do very well at technical schools can then continue to study at university. They can get very good jobs, such as becoming engineers. However, all jobs that need technical skills are important.

A scientist visited our school today and we all asked her some questions. I asked her why the sky was blue. She said that it was because we see blue light from the sun. Mona asked her what clouds were made of. The scientist said that clouds were made of tiny pieces of ice and water. Leila then asked her how cold it got in the desert. She answered that it was sometimes 0°C or colder at night! Finally, Leila asked the scientist if we would grow vegetables in a lot more of the desert one day. She said that this was possible but that it would be very difficult because of the cold weather at night. It was an interesting lesson and we all learned a lot of interesting facts!

Read the following, then answer the questions: (5 m)

Addiction is one of the most dangerous problems these days. To become addicted to something means that you can't do without it. There are two forms of addiction. The first one is a physical addiction and the other is a psychological addiction. A physical addiction happens when your body needs something and without this thing, you may feel very bad. A psychological addiction is when you think that you need something to feel OK. To know that someone is addicted is when you see changes in his habits or being rude to his parents or teachers. To help the addicted

people, we should talk to them or tell someone who can help, for example, a teacher.

Answer the following questions:

- 1- How many forms of addictions are there in this passage?
- 2- How can we help the addicted people?
- 3- Do you think that addiction is dangerous? Why? Why not?

B'Choose the correct answer:

- 4. To be addicted to something means
 - o to be unable to stop doing it
- to be able to stop it

to dislike it

- d to agree to do it
- - easy

- rough

Mr Ahmed is a teacher of English at a preparatory school in a <u>remote</u> village in upper Egypt. He is proud of his job. He does his best to make his students fluent in English as he thinks it is the most widely used language all over the world. Mr Ahmed is a good model for young teachers because he is updating himself all the

time by attending a lot of teaching workshops and using the net for the same purpose. He is well liked and respected not only by his students but also by each one in his village. Though he is still single, he treats his students in a fatherly way. He <u>inspires</u> them to be good citizens who will form the future of our beloved country. Mr Omar's wife and children asked him to buy them a new TV set. So one morning, he walked to the bank. He drew five thousand pounds from his bank account. He put the money carefully in an envelope, and then he made for the bus station to take a bus to the town centre. Then he changed his mind and decided to take a taxi. He thought that the money might be stolen if he took a bus. The taxi he took dropped him near a TV shop. He thanked the driver and tipped him. Mr Omar got into the shop and chose a smart TV. When he went to the cash desk and stood in front of the cashier to pay, he got a big surprise. The envelope had disappeared. Soon, he hurried out of the shop. To his surprise, he found the taxi driver waiting for him.

I really have a wonderful break time at school. It comes in the middle of the school day after the third lesson. It is usually between 11 and 11:30 in the morning. Break time is quite important because it makes us fresh again for the coming lessons. We never stay in our classes during the break. Some students have a walk in the playground. Others open their lunch boxes and start eating together. I really enjoy myself during the break. After eating, I go to the school library where there are plenty of good books to read or borrow. Other times I go

to the music room to train for the school party. As soon as the bell rings, we rush to our classes with fresh minds.

Answer the following questions:

1- 1- Why do you think students should go to the library?

We study a lot of subjects at school. Each subject teaches us certain things in our life. Foreign languages enable us to communicate with other people and to know how other people think and talk. We learn the Arabic language to be able to tell others what we want and understand what others tell us. Mathematics helps us to think. History tells us about our own country and the people of the world around us. Geography tells us about plants, animals and people, where and how they live and what they do. Physical Education helps us grow strong and keep us fit. We learn biology so as to tell us about living things. Computers are also very important because they help us do difficult sums quickly and can store

Last summer holiday, Ahmed decided to make a journey by train from Cairo to Alexandria. He reached the station about half an hour before the departure of the train. The station was very crowded. He stood on the line and bought a second class ticket. The train came at the right time and everybody tried to get in the train fast. When the train left the station, Ahmed looked outside to enjoy the beauty of nature. The train was running through green fields. There were wheat plants here and there. It was a wonderful scene. Inside the train, passengers were talking together. Others were reading newspapers and magazines. One passenger

stood and began to read out a poem he had written. Passengers clapped their hands after he had finished. Ahmed can't forget that journey as it gave him much pleasure. Computers are very important and useful in our daily life. They are used everywhere; in banks, schools, hospitals, offices and at home. We can watch films and matches, listen to songs, read the news, send e-mails, draw pictures and chat with our friends by using computers. Although computers have made life easier and more comfortable, they have bad effects on our lives. When computers are used too much, they will develop a kind of addiction. A person who is addicted to the computer will spend most of his time alone and if he doesn't check his social networking sites, he feels unhappy. Computer addiction can also cause health problems such as bad eye-sight and becoming fat.

Dolphins are sea animals that belong to the whales. A sea animal is the one that lives in the water. Dolphins are found all over the world in the oceans, seas, rivers and lakes. Dolphins are meat eaters: they feed on fish. They often swim together in groups and they have good eyesight and good hearing but they don't have a sense of smell. Dolphins come in different sizes. Some are smaller than the usual person, but others can be 30 feet long or more than five times than the usual person. Dolphins are very intelligent and communicate with each other using clicks and whistles. All dolphins are good swimmers and funny swimmers, too. If you go near the seashores, you might see dolphins playing and swimming happily there. Some park owners get dolphins in their parks to amuse the visitors.

A	Answer	the	following	quest	ions:

- Where are dolphins found?
- How do dolphins communicate with each other?
- Do you think that dolphins are plant eaters? Why? Why not?

Uncle Saleh is fond of going to the cinema. We don't have a cinema in our town, so he travels to the next town to see a film once a month. He goes to the cinema alone though he has many friends. Recently, we knew why from my mother. Uncle Saleh wanted to be an actor at early age. He waited outside the studios to appear in scenes, trying to achieve his goal as a film star. While he was looking for a small part in a film, he met a director in our ...who offered him a role as an accountant in a bank. The part was small with a few lines, but important for him. He thought it was the beginning as a film star. In the end, the scene was cancelled and nobody told him. When the film appeared in Cairo, he took all his friends to see it. It was a terrible blow as he was not in it! Since then, he went to the cinema alone.

- Answer the following questions:
- Why did uncle Saleh wait outside the studios?
- How often does uncle Saleh go to the cinema?

Time is very important, so if we have spare time, we should spend it in a useful way.

A wise person is the one who makes the best use of it. Some people like to practise sports to keep fit and strong, others prefer reading and writing to live in their own world. Reading is the most important and famous hobby that people can enjoy a lot. It helps them to spend a nice and useful time. A book is a good friend that you can have with you wherever you go. It provides you with different kinds of knowledge and lots of information. That is why we have to encourage our pupils to go to school libraries. There, they can read and borrow books to know more about different subjects, countries and different people. Nowadays free reading competitions are held, and winners are awarded to spread the love of reading among students as it gives them the chance to think better.

school day after the third lesson. It is usually between 11 and 11:30 in the morning. Break time is quite important because it makes us fresh again for the coming lessons. We never stay in our classes during the break. Some students have a walk in the playground. Others open their lunch boxes and start eating together. I really enjoy myself during the break. After eating, I go to the school library where there are plenty of good books to read or borrow. Other times I go to the music room to train for the school party. Bike catchers are people who take bikes from canals in Amsterdam, a city in Europe. There are no hills in the city so a lot of people cycle to school and to work. In fact, thirty percent of people in Amsterdam travel to work by bike. The city also has a lot of canals and sometimes the bikes fall into the water. Perhaps this is because there are more bikes in the city than people! In the 1960s, there were so many bikes in the canals that they began to damage the bottom of boats. That is when the job of bike catchers began. One bike catcher told me that they take 14.000 bikes out of the canals each year. People used to see different kinds and colours of bikes there.

3- Read the following passage and answer the questions: (5 M)
Bike catchers are people who take bikes from canals in Amsterdam, a city in Europe. There are no hills in the city so a lot of people cycle to school and to work. In fact, thirty percent of people in Amsterdam travel to work by bike. The city also has a lot of canals and sometimes the bikes fall into the water. Perhaps this is because there are more bike in the city than people! In the 1960s, there were so many bikes in the canals that they began to damage the bottom of boats. That is when the job of bike catchers began. One bike catcher told me that they take 14.000 bikes out of the canals each year. People use to see different kinds and colours of bikes there. A)Answer the following questions:
1- When did the job of bike catchers start?
2- Why do so many people cycle to work is Amsterdam?
3- Do you think that bikes are expensive in Amsterdam? Why? Why not?

After finishing preparatory school at 15, some students choose to stay in general education
but 60 percent of them go to technical schools. That's why the Egyptian government is giving
due care to the technical education and more technical schools are being built nowadays.
Students who join such schools learn skills that they can really use in the world of work. Becau
of the quick changes in technology, the skills that people need today are very different to wha
was needed ten or twenty years ago. There are also different kinds of technical schools and ea
school teaches a different kind of technical skill. Students who do very well at technical school
can then continue to study at university. They can get very good jobs, such as becoming
engineers. However, all jobs that need technical skills are important. Life would be impossible
without electricians, nurses, mechanics and farmers.

Dolphins are sea animals that belong to the whales. A sea animal is the one that lives in the water. Dolphins are found all over the world in the oceans, seas, rivers and lakes. Dolphins are meat eaters: they feed on fish. They often swim together in groups and they have good eyesight and good hearing but they don't have a sense of smell. Dolphins come in different sizes. Some are smaller than the usual person, but others can be 30 feet long or more than five times than the usual person. Dolphins are very intelligent and communicate with each other using clicks and whistles. All dolphins are good swimmers and funny swimmers, too. If you go near the seashores, you might see dolphins playing and swimming happily there. Some park owners get dolphins in their parks to amuse the visitors.
